**Eclipsemed Ltd Announces Partnership with Human Med AG,
To form US Subsidiary to support expanded sales of the Revolutionary Body-
Jet®**

(Dallas, Texas) Eclipsemed Ltd, a leading national supplier of advanced medical and aesthetic equipment, has announced its recent partnership with Human Med USA. Human Med AG of Germany, a leading manufacturer of medical and aesthetic devices including the revolutionary Body-Jet®, has formed Human Med USA to partner with Eclipse to increase efforts to sell Body-Jet® in the United States and North America.

“With the exceptionally strong sales advancement of Body-Jet in the United States, Human Med saw an opportunity to further support this unprecedented growth. By forming a partnership alliance to enhance the Eclipse effort, we believe this team concept shall be a supportive foundation for the significant increase in projected revenue,” says Arnd Kensy, CEO Human Med AG.

Tom O’Brien, CEO Eclipsemed adds, “Human Med’s willingness to create a US subsidiary to support our explosive growth is an indicator of their confidence in the Body-Jet’s future and the Eclipse rapid market penetration. Opportunities to transform an entire market in a short time are usually rare events. Together such an opportunity will certainly be realized.”

About Eclipsemed Ltd.

Eclipse is a leading supplier of aesthetic high-tech medical devices and related products. Eclipse has established a reputation as a trend setter on the national aesthetic market scene. The recent launch of the Body-Jet, water jet assisted liposuction technology is the most current example of how Eclipse has established itself as a undeniable force in bringing innovative products to market. Through its own direct sales force and team of independent agents, Eclipse continues to introduce products and solutions to the aesthetic marketplace. www.eclipsemed.com
